

Thermalization in a Nonabelian Plasma

Tuesday 13 December 2011

Session 3: Facets of thermalization - Fakultätsaal (11:00-12:30)

-Conveners: R. Baier

time	[id] title	presenter
11:00	[14] Entropy production and the Eigenstate Thermalization Hypotheses (ETH)	SCHÄFER, A.
11:30	[15] Quasilinear transport approach to equilibration of quark-gluon plasmas	MROWCZYNSKI, S.
12:00	[16] Towards thermalization in heavy-ion collisions: CGC meets the 2PI formalism	HATTA, Y.
