

5th Slow Extraction Workshop at MedAustron in Wiener Neustadt

Tuesday 13 February 2024

Managing Extraction Efficiency: II (14:00-15:40)

-Conveners: David Ondreka

time	[id] title	presenter
14:00	[51] Beam diffusers for beam loss reduction	MUTO, Ryotaro
14:20	[52] Feasibility of crystal shadowing for SX at 8 GeV	NAGASLAEV, Vladimir
14:40	[53] Crystal shadowing	VELOTTI, Francesco
15:00	[54] Application of numerical optimisers to the particle loss minimization at the SIS18 septum during slow extraction	KAZINOVA, Olha
15:20	[55] Electrostatic septa with heavy ions: challenges for machine protection	GALNANDER, Björn
