

International Conference on Science and Technology for FAIR in Europe 2014

Wednesday 15 October 2014

Applied, Plasma and Atomic Physics I - Mozartsaal (09:00-10:35)

-Conveners: **Thomas Stöhlker**

time	[id] title	presenter
09:00	[56] Solids under coupled extreme conditions: Simultaneous exposure to pressure, temperature and ion beams	LANG, Maik
09:20	[48] Low-energy antiprotons at CERN and at FAIR	WIDMANN, Eberhard
09:45	[49] Testing Quantum Electrodynamics at critical background electromagnetic fields	DI PIAZZA, Antonino
10:10	[50] Atomic physics of fast ions – slow ion collisions: The FISIC Project (Spiral II)	LAMOUR, Emily
