Charm 2009 Workshop

Wednesday 20 May 2009 - Friday 22 May 2009

Leimen/Heidelberg

Scientific Programme

This workshop will cover recent results in this field, including the impact on and from theory, as well as projections for results to be expected from upcoming facilities. In particular, sessions will address the following topics:

Charm Production in Vacuum and Nuclear Matter
Hidden Charm Spectroscopy and Transitions
Charm Meson Spectroscopy
Nonleptonic Charm Meson Decays
Leptonic, Semileptonic and Rare Charm Decays
D Oscillations and CP Violation
Charm Baryons
Experimental Charm Facilities - Status and Future
