

Workshop on Geiger-mode Avalanche Photo Diodes

Tuesday 10 February 2009

Information from the FP7 research groups (continued) - C27 (09:15-12:45)

time	[id] title	presenter
09:15	[17] Prospects for SiPMs at the Crystal-Barrel Experiment, by C. Wendel, University of Bonn	
09:35	[20] The Frascati group activity in testing SiPM related to the AMADEUS experiment, by Catalina Petrascu	
09:55	[21] Activities at SMI/Vienna in testing the performance of SiPMs, by Hans Marton SMI Vienna	
10:15	[22] G-APD activities at GSI, by Herbert Orth, GSI Darmstadt	
10:35	[23] APD Laser Test Setup, by Peter Koyds, Charles University Prague	
10:55	[24] SiPM study and techniques for application in TOF, by Gennady Gavrillov, PNPI Gatchina	
11:15	[25] Test Beam studies of COMPASS ECAL0 module prototype with MAPD readout, A. Olchevski JINR Dubna	
11:35	[26] Erlangen plans with SiPM, by Albert Lehmann, University of Erlangen	
11:55	[27] Initial R&D with GAPDs , V. Ammosov, IHEP Protvino (not presented)
