

GSI - FAIR Colloquium

on this occasion

the GSI-FAIR PhD award will be given to Ingo Tews.

Main Lecture Hall (SB1 1.120), 64291 Darmstadt, Planckstraße 1

*Tuesday, November 1, 2016,
16:15 Uhr (Tea from 15:45)*

Colloquium

ALICE - Achievements and prospects

Johannes Wessels

Westfälische Wilhelms-Universität Münster

I will be discussing some of the results from proton-proton, proton-nucleus and nucleus-nucleus collisions taken with the ALICE experiment. In particular global observables like particle production and flow, as well as hard probes like heavy quarks and jets will be discussed and a perspective will be given on future opportunities, which will be in reach for ALICE following the upgrade following Long Shutdown 2.

Award Ceremony - *The award will be presented by
Karlheinz Langanke (Chief Scientific Officer of GSI) and
Ulrich von Hülsen (Chairman Pfeiffer Vacuum)*

Presentation by the Prize-Winner

Ingo Tews

Einladende: Silvia Masciocchi

GSI Helmholtzzentrum für Schwerionenforschung GmbH
