

Vacuum Beyond Specifications

Agilent understands the difference between simply installing a component, and implementing a vacuum solution that delivers long-term performance and confidence.

New Agilent Ion Pump 200 Extreme High Vacuum Performance

The first Ion Pumps with maximum pumping speed at low pressure

- Enhanced pumping speed
- New pumping elements design
- Optimized magnetic field
- New Vacuum Firing Thermal process
- New heater design
- Most Compact Size
- New IPCMini Single Channel Ion Pump Controller

Agilent TwisTorr FS Turbo Pump Family

- Agilent Quality and Reliability
- Quiet operation & low-vibration
- Stability over time
- Superior performance
- Easy system integration

Worry-Free New Agilent IDP Dry Scroll Vacuum Pumps

- Rapid pump down, low base pressures
- Oil-free: clean, dry
- Simple, infrequent maintenance
- Quiet, low vibration
- Easy installation and system integration
