

Nordic Winter Meeting on Physics @ FAIR

Tuesday 23 March 2010

Atomic Physics: AP1 (14:30-18:15)

-Conveners: Wilfried Noertershaeuser; Thomas Beier

time	[id] title	presenter
14:30	[30] Precision electron collision spectroscopy of highly charged ions	Prof. WOLF, Andreas
15:30	[10] Measurement of the ground-state hyperfine splitting of antihydrogen	Dr JUHASZ, Bertalan
16:00	[17] Calculations of antihydrogen formation and collisions	Dr JONSELL, Svante
16:30	Coffee break	
16:45	[31] SPARC – Environment for Atomic Collision Physics at FAIR	Prof. WARCZAK, Andrzej

Thursday 25 March 2010

Atomic Physics: AP2 (16:30-17:00)

time	[id] title	presenter
16:30	[53] Nuclear Effects in Atomic Lifetimes: Studied with Be-like ions at Storage Rings and EBITs	Dr ORBAN, Istvan
