NETWORKING

HEPTech Newsletter
HEPTech Yearbook
Press releases of events
Success stories

PUBLICATIONS

HEPTech collaborates and participates in members' projects & consortia providing an international platform for dissemination of the project outcomes and enhancing the worldwide visibility of the project goals and results.

PROJECT COLLABORATION

HEPTech supports the TTOs in the Network to reach their potential by introducing their technologies and solutions to key players worldwide through the HEPTech platform (a form of brokerage service)

OPEN INNOVATION SUPPORT

The HEPTech web-site is both an online networking platform and a source of knowledge and information. Members receive access to the members-only-section with features that facilitate international networking, especially through the HEPTech data base of industrial contacts and a series of tools to increase their interaction with other members of the HEP community.

HEPTech Industry data base – collecting and maintaining industry contacts (e.g. from AIMEs)
