

- **crystal production:**

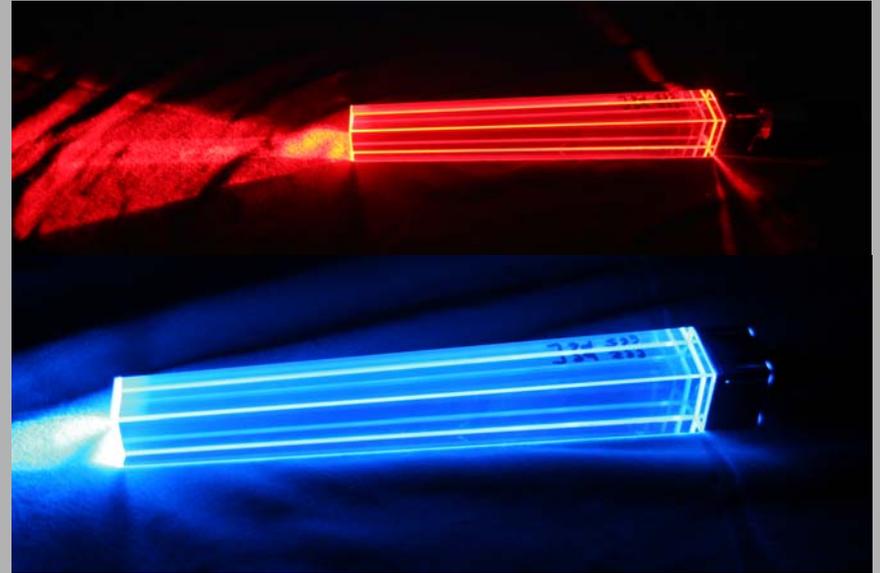

- all so far ordered crystals are delivered
- tests are completed up to lot B4 (delays @CERN and GI)  
additional support @CERN (Machard) but higher costs  
service contracts  $\frac{3}{4}$  of ACCOS/Johnsson machines
- high rejection only due to radiation hardness dk

- **future contracts and financing**

- BTCP memorandum
- discussion with SICCAS
- interests of BELLE and LHCb – discussions @SCINT09

- **good / excellent news**

- stimulated recovery
- submitted patent  
**TM – 382 –DE**

- **SCINT 2011 to be hosted by Giessen and HIC4F**
  - coverage of all scintillation materials and fields of application
- **consequences of German funding strategy**
