

# TASCA 21 - 18th Workshop on Recoil Separator for Superheavy Element Chemistry

## Wednesday 23 June 2021

### Recent News from Chemistry; Targets (Part 1) - Virtual (14:05-15:35)

time	[id] title	presenter
14:05	[23] Reactions in the Gas-Phase and Adsorption Properties of Elements Cn and Heavier	ILIAŠ, Miroslav
14:30	[16] Status and plans of chemical research with heaviest elements at PSI and FLNR	STEINEGGER, Patrick
14:55	[15] Direct coupling of liquid-phase chemical setups for heaviest element studies to a recoil separator	KRUPP, Dominik
15:15	[25] Off-line single-atom gas chromatographic adsorption studies of lead and bismuth	DIETZEL, Dominik
