

TASCA 21 - 18th Workshop on Recoil Separator for Superheavy Element Chemistry

Wednesday 23 June 2021

Recent News from Chemistry; Targets (Part 2) - Virtual (15:55-17:40)

time	[id] title	presenter
15:55	[7] Chemical studies of Nh (Z=113) and Mc (Z=115) at TASCA	YAKUSHEV, Alexander
16:20	[11] Functionalized surfaces and oxidation states of on-line produced thallium	TERESHATOV, Evgeny
16:40	[13] The isotope program at ORNL for targets for superheavy element research	EZOLD, Julie
17:00	[28] Key aspects for the production of the ideal actinide target for the production of superheavy elements	DÜLLMANN, Christoph
17:20	[14] Ion-Beam Induced Structural and Chemical Changes in Targets Used for Superheavy Element Production	MEYER, Carl-Christian
