

- *COVID-19 impact for the time being:*
 - *staff “separated” into two shifts to reduce office occupancy to one person:*
 1. *home office (available by email & phone)*
 2. *on-site*
 - *some delay in communication with DANFYSIK, EPS, NCM*
 - *some delay in preparation of FoS (reduction of staff inside bunker to ≤ 2)*
- **Alvarez 2.0 - FoS:**
 - preparations for hprf-tests ongoing, receiving parts
 - DT study progressing as planned
 - dummy cavity copper plated last Wednesday
 - Cu-plating of small parts ongoing externally
- **Accel. seminar:**
 - re-start on Sept. 9th
 - A. Oeftiger: “Sim. of int. beams in synchrotrons”
- **ROSE:**
 - preparation of collaboration form with IAP
 - testing new software FOUROSE
