

FIAS-EMMI Day

Report of Contributions

Contribution ID: 0

Type: **not specified**

Welcome

Tuesday, 11 January 2011 11:15 (5 minutes)

Contribution ID: 1

Type: **not specified**

Experimental study of extreme matter produced in ultra-relativistic heavy ion collisions

Tuesday, 11 January 2011 11:20 (40 minutes)

Presenter: ILYA SELYUZHENKOV

Contribution ID: 2

Type: **not specified**

Quark matter in the early universe

Tuesday, 11 January 2011 14:00 (40 minutes)

Presenter: SCHAFFNER-BIELICH, Jürgen

Contribution ID: 3

Type: **not specified**

Multiscale approach to the physics of ion-beam cancer therapy

Tuesday, 11 January 2011 12:00 (40 minutes)

Presenter: ANDREY V. SOLOV'YOV

Contribution ID: 4

Type: **not specified**

Laser Spectroscopy of Exotic Few-Electron Systems: Investigations at the Boundary of Atomic and Nuclear Physics

Tuesday, 11 January 2011 14:40 (40 minutes)

Presenter: NÖRTERSHÄUSER, Wilfried

Contribution ID: 5

Type: **not specified**

High Power Lasers: Powerful Tool for Extreme Matter Studies

Tuesday, 11 January 2011 15:40 (40 minutes)

Presenter: VINCENT BAGNOUD

Contribution ID: 6

Type: **not specified**

Ultracold fermions with three components: Cooper-pairs, molecules and trions

Tuesday, 11 January 2011 16:20 (40 minutes)

Presenter: STEFAN FLÖRCHINGER
