

Kick-off Meeting for I.FAST-REX Resonant EXtraction improvement

Contribution ID: 2

Type: **not specified**

Slow extraction at CERN

Monday, 8 February 2021 13:05 (25 minutes)

An overview talk reviewing our facilities, requirements and future requests. We'll also summarise R&D done recently and future improvements for our machines (as well as instrumentation) as well as collaboration plans and potential time for machine development time with beam.

Presenters: FRASER, Matthew (CERN); KAIN, Verena (CERN)

Session Classification: Status and perspective at existing synchrotrons
