Recent microspill improvement activities at SIS18

Monday, 8 February 2021 14:55 (20 minutes)

Outcome of experiments for micro-spill quality improvements in the past couple of year at SIS-18 will be discussed. Available instrumentation for bunched and un-bunched spill detection will be presented.

Presenter: SINGH, Rahul (GSI Helmholtzzentrum für Schwerionenforschung GmbH(GSI))

Session Classification: Status and perspective at existing synchrotrons
