

The 4th EMMI workshop on Plasma Physics with Intense Heavy Ion and Laser Beams

Wednesday 04 May 2011

Physics in Extreme Fields (09:00-11:00)

time	[id] title	presenter
09:00	[30] Modification of laser driven ion beams by using the double-pulse drive technique	BRENNER, C.
09:20	[31] Radiation Pressure Dominated Acceleration of Ions	STEINKE, S.
09:50	[32] Laser-driven electron acceleration: How to get insight into the acceleration process	NICOLAI, M.
10:20	[33] Absorption spectroscopy of neighbouring Z plasmas in the X and XUV ranges at LULI 2000	LOISEL, G.
10:30	Coffee Break
