

# EMMI-JINA Workshop: Nucleosynthesis beyond iron and the lighter element primary process

## Wednesday 12 October 2011

**First session: supernovae, r-process and vp-process - Lecture Hall (KBW) (09:00-15:20)**

time	[id] title	presenter
09:00	[24] r-process nucleosynthesis and chemical evolution in the early Galaxy	QIAN, Y.-Z.
09:40	[23] Exploring possible astrophysical sources of r-process elements	JANKA, H.-Th.
10:20	Coffee Break	
10:40	[25] Nucleosynthesis of trans-iron elements in core-collapse supernovae and neutron-star mergers	WANAJO, S.
11:20	[26] The vp-process	FROEHLICH, C.
12:00	[40] Indirect experiments for neutron reactions with unstable nuclei	BLACKMON, J.
