

# EMMI-JINA Workshop: Nucleosynthesis beyond iron and the lighter element primary process

## Monday 10 October 2011

**Special session: John cowan and the low metallicity galaxy - Lecture Hall (KBW) (16:30-18:15)**

time	[id] title	presenter
16:30	[33] Heavy & light neutron-capture elements in halo stars: what a difference a theoretician makes	SNEDEN, C.
17:05	[34] Nuclear clocks for the age of the Universe	KÄPPELER, F.
17:35	[35] Silver,, palladium and the 'second' r-process	HANSEN, C.
17:55	[36] t.b.a.
