

EMMI Workshop: New avenues for the low-energy NUSTAR program at GSI-FAIR

Friday 17 September 2021

Session 6: Session 6 (11:00-12:30)

-Conveners: Dieter Ackermann

time	[id] title	presenter
11:00	[22] n-rich high-K isomers in the hafnium region	WALKER, Philip
11:30	[23] Is in-beam spectroscopy feasible at the Unilac? Precise g factor and transition probability studies.	STUCHBERY, Andrew GEORGIEV, Georgi
11:50	[24] Ground state properties from post-transition metals to actinides and their applications in beyond standard model searches	REITER, Pascal
12:10	[25] beta-delayed fission studies utilising Multi-Nucleon-Transfer Reactions	HALL, Oscar
