

Industry meets Academia: Beam Monitoring Instrumentation and Quality Assurance

Thursday 10 November 2011 - Friday 11 November 2011

Scientific Programme

This workshop focuses on recent advances and developments in beam monitoring, the detectors, instrumentation, and methods involved, as well as state of the art electronics and applications of beam monitoring in particle therapy.

15 talks and 20 posters present both solutions and standing issues in the field, while up to 8 company stands present their latest and upcoming equipment. The workshop schedule is intentionally not too stacked in order to encourage discussions and networking, to serve as a marketplace for innovation and future collaborations.
