

## E\_rel oxygen26

*Thursday, 3 November 2011 17:40 (20 minutes)*

did:

- 1) calibrations
  - SST-calibrations using Matthias scripts
  - LAND & TFW calibrations using Dominics scripts
  - GFI calibration is still in progress ...
- 2) fragment mass tracking
  - used Ralfs tracker with little success
  - used (modified) reference method with little success  
but this i did not finish completely
  - so far best results with empirical mass reconstruction  
using GFIs
- 3) preliminary E\_rel for 25-oxygen
