

Nuclei in the Cosmos XII - Satellite Workshop

Saturday 04 August 2012

Simulations & Theory (15:30-17:30)

time	[id] title	presenter
15:30	[10] Lighter element primary process (LEPP) in neutrino-driven winds	ARCONES, Almudena
16:00	[9] The Rare Earth Peak: An Overlooked r-Process Diagnostic	Dr MUMPOWER, Matthew
16:30	[8] Single particle levels in Sn-131 and Sn-133 on the path of r-process nucleosynthesis	Dr ZHANG, Shi-Sheng
17:00	[5] β decays of isotones with $N = 126$ and nuclei nearby and r-process nucleosynthesis	Prof. SUZUKI, Toshio
