

# HITRAP Facility and Experiments - Status and Future Perspectives

## Monday 18 July 2022

### Session 2: Surface Physics 1 - Luthersaal (11:10-12:25)

**-Conveners: Sonja Bernitt**

time	[id] title	presenter
11:10	[27] S-EBIT II, a local ion source for HITRAP	MORGENROTH, Tino
11:35	[7] Surface modification using slow highly charged ions	NIGGAS, Anna
12:00	[15] Perforation of 2D-structures by impact of highly charged ions	GROSSEK, Alexander
