

# TASCA 22 - Program, Abstracts & Contributions

## Thursday 12 May 2022

### Chemistry / Interdisciplinary (Part 2) - Virtual (16:00-17:35)

time	[id] title	presenter
16:00	[37] Adsorption of superheavy element atoms and molecules on different surfaces	PERSHINA, Valeria
16:30	[4] Status and perspectives of chemistry studies with superheavy elements at the SHE factory in Dubna	STEINEGGER, Patrick
17:00	[36] Towards chemistry beyond moscovium (Mc, Z = 115)	YAKUSHEV, Alexander WEI, Yeqiang
17:20	[62] Metal adsorption on thiolate-functionalized gold-coated silicon detectors for the future study of meitnerium chemistry	ZAKUSILOVA, Vira
