

EMMI+IReNA Workshop "Remnants of neutron-star mergers – Connecting hydrodynamics models to nuclear, neutrino, and kilonova physics"

Tuesday 18 October 2022

Hydro session 4 - KBW Lecture Hall (14:30-15:30)

time	[id] title	presenter
14:30	[10] Turbulent magnetic field amplification in binary neutron star mergers (in-person)	AGUILERA MIRET, Ricard
15:00	[11] Magnetized binary neutron star merger simulations and prospects of launching SGRB jets (online)	KALINANI, Jay
