

First Circular

October 07, 2022

The **14th International Conference on Stopping and Manipulation of Ions and related Topic (SMI-2023)** will take place in Gießen, Germany.

The goal of the conference is to provide a platform for presentations and discussions on the stopping and thermalization of ions in gases, methods to provide clean and cooled low-energy beams, and their subsequent analysis.

The conference series started in Konnevesi, Finland, in 1986. Since then, the meetings have been organized in the following places: Pelussin, France (1988), Belgium (1990), Rydzyna, Poland (1992), Japan (1995), Dubna, Russia (1997), Mainz, Germany (1999), Chicago, USA (2001), Groningen, The Netherlands (2006), Stanford (Palo Alto), California, USA (2010), Jyväskylä, Finland (2013), Lanzhou, China (2016), and Montreal, Canada (2019).

The conference is organized jointly by GSI/FAIR, Justus Liebig University Gießen and the Helmholtz Institute Mainz. The conference will take place close to Gießen (60 km north of Frankfurt) in the “Burghotel Staufenberg”. The conference will start on Monday, May 8, 2023 after lunch and end on Thursday, May 11, 2023 after lunch.

The conference website and contact email addresses are

Please distribute this circular to interested colleagues.

International Advisory Committee

Juha Äystö (University of Jyväskylä, Finland)
Klaus Blaum (MPIK Heidelberg, Germany)
Michael Block (Helmholtz Institute Mainz, Germany)
Georg Bollen (FRIB, USA)
Jens Dilling (TRIUMF, Canada)
Frank Herfurth (GSI, Germany)
Wenxue Huang (IMP/CAS, China)
Ari Jokinen (University of Jyväskylä, Finland)
Wolfgang Plaß (GSI, Germany)
Guy Savard (ANL, USA)
Michiharu Wada (KEK, Japan)

Organizing Committee

Timo Dickel (GSI, JLU Gießen) – chair
Michael Block (GSI, HIM) – chair
Wolfgang Plaß (GSI, JLU Gießen) – chair
Evelin Prinz (JLU Gießen) – secretary
Luise Dörsching-Steitz (GSI) – secretary
