

Innovation in cooperation: Enabling new deep-tech solutions for society

Dr. Martina Bauer

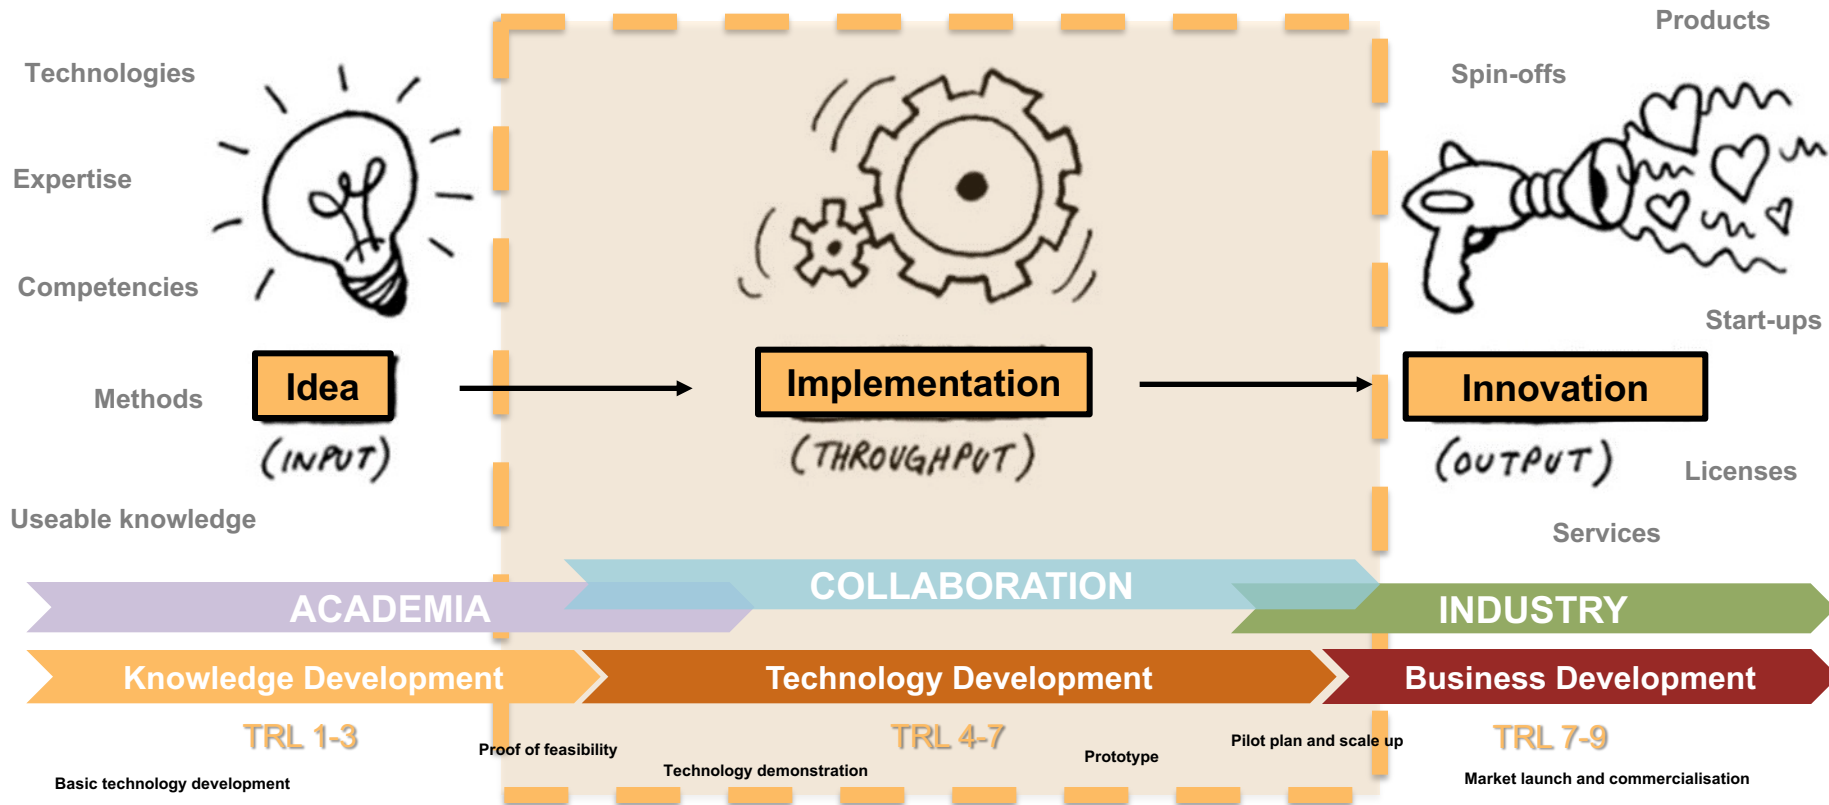

*Technology Transfer
GSI Helmholtz Center for Heavy Ion Research GmbH*

20th October 2023

Superconductivity for Sustainable Energy Systems and Particle Accelerators

GSI/FAIR Technology Transfer

Where we work...

..."the process of translating an idea or invention into a good or service that creates **value** or for which customers will pay."

**“The value of an idea lies
in the using of it.”**

Thomas Edison

Technische Universität Darmstadt

- **GSI-Varian cooperation on range modulators for pFLASH**

- **GSI-Focused Energy cooperation**
Mapping out the parameters for inertial confinement fusion

Source: <https://focused-energy.world/>

- GSI Material Science & Zentrum für BrennstoffzellenTechnik ZBT GmbH, Duisburg

- Development of innovative cathode catalyst layers for high-performance PEM fuel cells by using template-assisted electrodeposition of GSI nanowire support structures.

Industrial project steering committee

Funded by

IGF- Vorhaben Nr.: 22841 BG / 1

Early involvement of industry to reduce „time to market“

- Example: **ROSE - 4-dimensional emittance measurement system**
 - Successful transfer from the high-energy accelerator sector to industrial application at the medium-sized company NTG GmbH, Germany.

New algorithm to measure 4D ion-beam emittance

Patent

Validation Partner -
NTG GmbH

Funding –
2 national grants

Gefördert durch:

Bundesministerium
für Wirtschaft
und Energie

Exzellente Forschung für
Hessens Zukunft

aufgrund eines Beschlusses
des Deutschen Bundestages

Industrial
prototype of
electronic device
(1st grant)

User-friendly software
for automatisisation of
measurement and
setting
(2nd grant)

ROSE Scanner - New
innovative product for the
market (license)

www.ntg.de

2. Highest priority for FAIR construction and project

- Limited R&D resources for transfer projects
- Technology Push
- High investments in infrastructure (new and existing)

GSI/FAIR Green IT-Cube & Real-Lab “Digital Open Lab”

Making our infrastructure available for external partners

Funded by
the European Union
NextGenerationEU

DIGITAL OPEN LAB offers...

Joint R&D - Offer for provision the infrastructure and IT competences of GSI and FAIR for joint development projects around about HPC, Big Data and ultra-fast data acquisition, including software development and products.

COLLABORATIONS - access to HPC systems and projects for external partners via collaboration projects.

PROVISION OF RACK SPACE - offer of services in the data centre.

Hi-Acts - Helmholtz Innovation Plattform for Accelerator-based Technologies & Solutions

- Multi-sector innovation platform
- Accelerating the development of system-based solutions.
- Networking and Partnering opportunities
- Co-creation: joint development of novel approaches and solutions.
- One-stop-shop: easy access to Helmholtz's powerful R&D infrastructure and services.

Variety of opportunities for funding at different levels for energy efficiency and sustainability projects

„Helmholtz Sustainability Challenge”: 2nd Call – Satellite Projects dedicated to provide funding for research projects in the thematic field of sustainable value chains and networks.

Germany

State level: funding opportunities in the areas of energy efficiency and sustainability (including structural funds; **EFRE**). The basis for the exchange with the ministries is a project outline.

Federal level: large number of different programmes.

Bundesministerium

In case of GSI: a.vink@gsi.de
or eu-support@gsi.de.

- ✓ Fostering an active exchange with industry to identify the relevant „problems for our solutions“
- ✓ Unique competencies, know-how and infrastructure is available to map out new technological trends and applications in cooperation with industrial partners.
- ✓ Co-creation with and early involvement of industry helps to reduce the time to market.
- ✓ Establishing formats to open our unique infrastructure and expertise to external partners.
- ✓ Several cooperation forms and funding opportunities are available!

Thank you for your attention!
