Our Product Overview:

- Quartz Crystal rate- and thickness monitors and controllers
- EIES controller Guardian for long processes and high rates
- pressure measurement instrumentation and vacuum components

- high vacuum valves

- cryo pumps • Gifford-McMahon coolers

- cryo pumps • oil diffusion pumps • complete pump stacks
- Ti sublimers • accessories

- Stirling coolers

- Stirling cooler K535 • water vapour traps • condensate traps

- compact Gifford-McMahon coolers

- cryogenic temperature monitors • cryogenic sensors

- LN₂ generators
- N₂ und O₂ generators

- rotating magnetron cathodes
- planar magnetron cathodes

- SQUID magnetometer
- superconducting magnets and magnet systems
