

# 5th Slow Extraction Workshop at MedAustron in Wiener Neustadt

## Tuesday 13 February 2024

### Managing Extraction Efficiency: I (11:00-12:40)

-Conveners: Ryotaro Muto

time	[id] title	presenter
11:00	[45] Beam loss optimisation for slow extraction at MedAustron	PLASSARD, Fabien
11:20	[46] Beam Trajectory influence on dispersion and uniform beams at NASA Space Radiation Laboratory's Beam Line	DHITAL, Bhawin
11:40	[47] Challenge of low energy, large emittance beams	HOU, Linxiao
12:00	[48] SIS100 extraction layout: Influence of non-linear beam dynamics	ONDREKA, David
12:20	[50] Design of slow extraction from low emittance electron booster rings	CORTES GARCIA, Edgar Christopher
