

## Progress on ToDos

*Monday, 15 January 2024 15:45 (15 minutes)*

- HZDR strategic partner with nuclear astrophysics, get in contact with Colleagues and understand if there is a wish to join MU activities
- fix MU-CML structure and prepare one page on science goals for FoPoZi
- collect list of the sub-topics -> make sure that idea fits the concept
- integrate better neutrino activities
- text on detector developments for MT? Following the ideas emerged from the Retreat on Silicon Detector @ GSI/FAIR, and which are summarised in the strategy paper "Towards next generation silicon sensors at GSI/FAIR", we discussed that we shall include silicon detector developments in MT
- discuss strategic development of the CML in terms of personal (retirements, new topics)
- news on FAIR role in Helmholtz, how to integrate FAIR experiments?
