

Poster prize

517. WE-Heraeus-Seminar:
Accelerator physics for intense ion beams

Book prizes:

- A. Chao and M. Tigner:
Handbook of Accelerator Physics and Engineering
- M.G Minty and F. Zimmerman:
Measurement and Control of Charged Particle Beams (Particle Acceleration and Detection)
- K. Wille:
The Physics of Particle Accelerators: An Introduction

1. Christoph Wiesner:

Fast chopper system for high intensity proton beams

2. Simon Busold:

Transport and focussing of laser accelerated protons

3. Sandra Aumon:

High intensity beam issues in the CERN PS
