

Preparation for Dry/Wet Run 24_3 (Oct/Nov 2024)

Peter Gerhard, Hanno Hüther

Dry/Wet Run 24_3 (2024-10-21 to 2024-11-08)

excerpt from ICU Project Test and Release Plan

- Preparation status: Still in rough planning, time frame for commissioning currently in negotiation
- Proposal for detailed planning to be prepared by Peter & Hanno

Dry/Wet Run 24_3: Major Phases

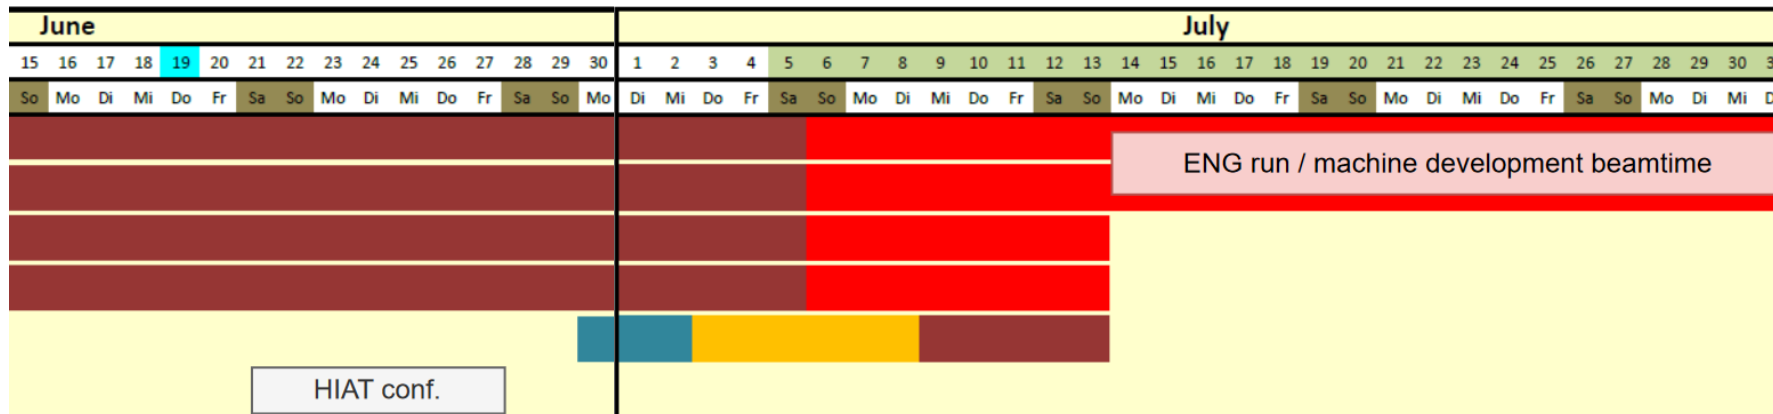

excerpt from ICU Project Test and Release Plan

- Ensure dry operation of all required devices
- Verify chopper control and machine protection
- Produce beam and use beam diagnostics to analyze

Currently planned as next steps for dry run preparation:

- Detailed planning (in preparation, to be discussed in ICU JF on 2024-10-02, 13:30 to 15:30)
- Coordination with equipment specialists regarding requirements for beam production and commissioning
- Follow-up progress on Chopper Control Interface implementation
- Suggestions and issue reports welcome!

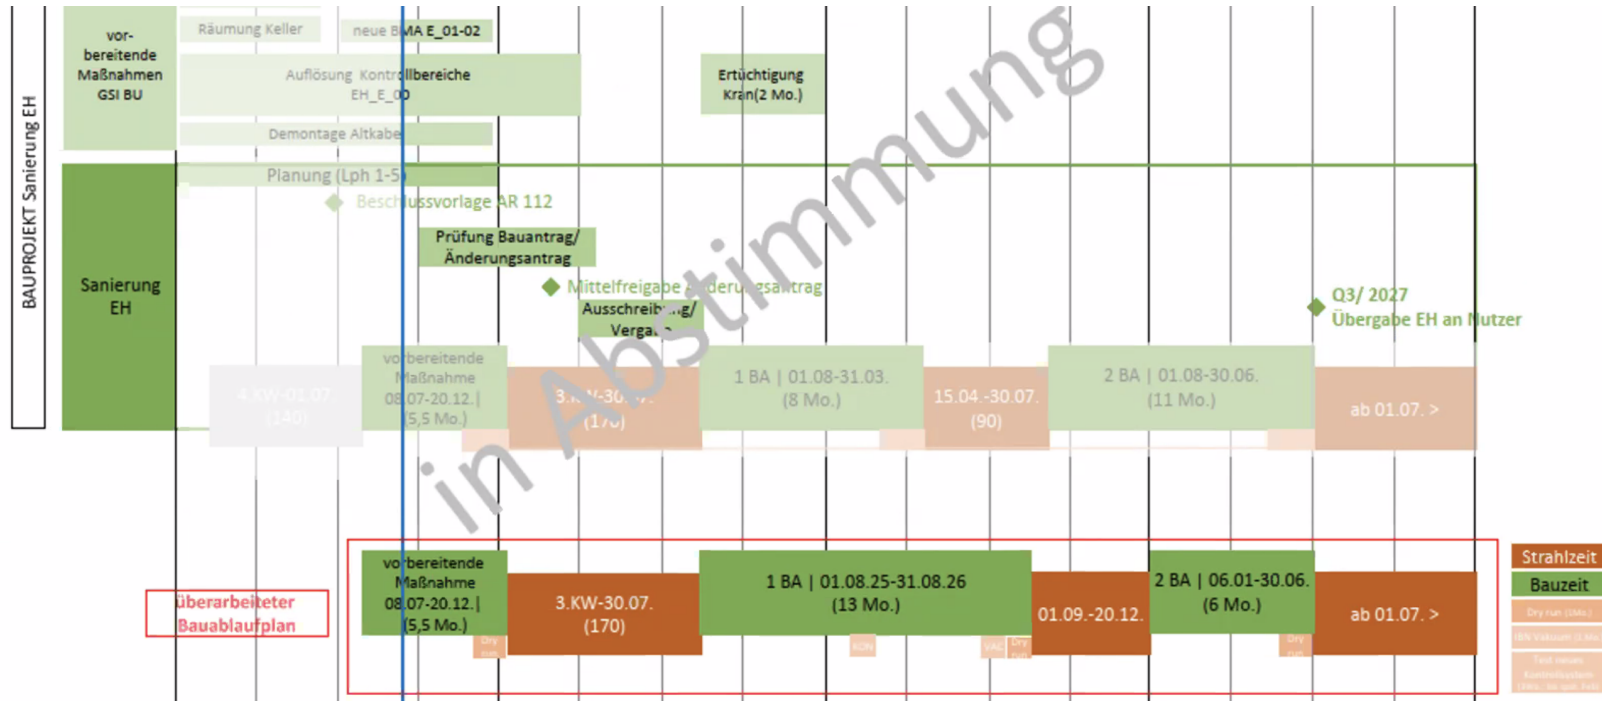

Outlook: Wet Run in Summer 2025

excerpt from ICU Project Test and Release Plan

- Goal: Test of production system prototype for 2026 beam time including beam transfer to SIS18
- Preparation status: Time frame and machine availability confirmed by OPE

Outlook: Wet Run in Summer 2025

- Preparation status: Time frame and machine availability confirmed by OPE
