

# EMMI Workshop on high energy density plasma diagnostics at FAIR: Novel laser based photon and particle sources

## Monday 30 September 2013

Physics with High Contrast / Ultra-short Laser Pulses - Lecture Hall (SB1.120) (14:30-16:10)

time	[id] title	presenter
14:30	[9] Generation and applications of relativistic quasi-single-cycle laser pulses	VEISZ, Laszlo
15:00	[10] Circular Attosecond Pulses from Nano Foils	RUHL, Hartmut
15:30	[11] Simulations of Raman amplification in Plasma	FARMER, John
15:50	[12] Plasma mirror lifetime characterisation and its applications to laser plasma interactions	SCOTT, Graeme
