

DREB2014 - Direct Reactions with Exotic Beams

Tuesday 01 July 2014

Session 3 (11:00-12:40)

-Conveners: **Angela Bonaccorso**

time	[id] title	presenter
11:00	[37] Structure of the heaviest Boron and Carbon isotopes 18,19B, 21,22C	Mr LEBLOND, Sylvain
11:25	[75] Effect of sequential process on neutron-knockout reaction of 6He	Dr KIKUCHI, Yuma
11:50	[34] Deformed halo nuclei observed through the reaction cross sections measurements for Ne and Mg isotopes to the vicinity of neutron-drip line	Dr TAKECHI, Maya
12:15	[100] Insights into the low-energy elastic scattering of halo nuclei	Dr DIAZ-TORRES, ALEXIS
