

Programm der Sitzung

19.-21. Mai 2026

TASCA 26 - Program & Abstracts

Chemistry of SHE (II)

GSI, KBW Lecture Hall, Room 1.17

Mi., 20. Mai

10:50

Chemistry of SHE (II)

Sitzung

10:50–11:20 Uhr

Gas phase chemical studies of the superheavy elements at the SHE Factory with a focus on Cn and Fl

Sprecher

Nikolay Aksenov

11:20–11:40 Uhr

Towards livermorium chemistry: Atom-at-a-time gas chromatography studies with polonium

Sprecher

Katharina Hermainski

11:40–12:00 Uhr

Po and Hg adsorption on functionalized gold chips

Sprecher

Annie Bukowski

12:00
