

EMMI Rapid Reaction Task Force: Quark Matter in Compact Stars

Tuesday 08 October 2013

Quark matter (09:00-12:00)

-Conveners: Fraga

time	[id] title	presenter
09:00	[9] Recent advances in perturbative QCD at finite temperature and density	VUORINEN
09:30	[10] Compact-star matter from NJL models and QCD	BUBALLA
10:00	[11] Superfluid properties of quark matter	SCHMITT
10:30	coffee	
11:00	[12] Quark matter subjects to strong magnetic fields	MENEZES
11:30	[13] Inhomogeneous chiral phases in the QCD phase diagram and implications on compact stars	TATSUMI
