

# NAVI Physics Days

## Monday 16 December 2013

### Session 3 - KBW Lecture Hall (16:45-18:45)

time	[id] title	presenter
16:45	[9] Underground nuclear astrophysics at the Dresden Felsenkeller: status report	BEMMERER, Daniel
17:15	[10] Measurement of beta-delayed neutron emission probabilities close to the 2nd and 3rd peak in the r-process path	MARTA, Michele
17:45	[11] Towards a fully converged microscopic nuclear mass model for r-process nucleosynthesis	RODRIGUEZ, Tomas
18:15	[12] Fission in R-Process Calculations and the Position of the Third Peak	EICHLER, Marius
