How to get your research published!

Thursday, 3 September 2015 14:30 (30 minutes)

Guidelines and tips will be presented for composing and structuring research articles with a content appropriate for publication in peer reviewed top-tier journals. An overview of the peer review process will be given indicating many of the questions referees seek answers to before accepting articles for publication.

Presenter: WATT, Graeme (EPL, European Physical Society)

Session Classification: Young Minds
