

International Conference on Exotic Atoms and Related Topics - EXA2014

Wednesday 17 September 2014

session II (13:30-15:30)

-Conveners: **Johann Marton Marton**

time	[id] title	presenter
13:30	[28] Emulsion detectors for the antihydrogen detection in AEgIS	Dr PISTILLO, Ciro
13:50	[2] First π K atom lifetime and π K scattering length measurements	Dr YAZKOV, Valeriy
14:10	[36] Investigation of KbarNN resonances with a coupled-channel Complex Scaling Method + Feshbach projection	Dr DOTE, Akinobu
14:30	[42] Toward the measurement of the hyperfine splitting in the ground state of muonic hydrogen	BAKALOV, Dimitar
14:50	[50] Experimental Determination of a Bound on Antihydrogen Charge	Prof. WURTELE, Jonathan
15:10	[80] The Muonic Helium Lamb Shift Experiment	Dr FRANKE, Beatrice
