

Session Program

Sep 14 - 19, 2014

**International Conference on Exotic Atoms
and Related Topics - EXA2014**

session I

Wed, September 17

1:30 PM

session I

Session | Convener: Prof. Volker Metag

1:30 - 1:50 PM

The eta' optical potential in nuclear medium based on the eta'N interaction from a chiral effective model

Speaker

Mr Shuntaro Sakai

Location

Theatersaal

1:50 - 2:10 PM

Search for the eta-mesic ^4He with WASA-at-COSY

Speaker

Dr Wojciech Krzemien

Location

Theatersaal

2:10 - 2:30 PM

Formation of eta-prime(958) mesic nuclei by (p,d) reaction

Speaker

Prof. Hideko Nagahiro

Location

Theatersaal

2:30 - 2:50 PM

Study of the eta meson production with polarized proton beam

Speaker

Dr Marcin Zielinski

Location

Theatersaal

2:50 - 3:10 PM

Interaction of antiproton with nuclei

Speaker

Ms Jaroslava Hrtankova

Location

Theatersaal

3:10 - 3:30 PM

First measurements of the antiproton-nucleus annihilation cross section at 130 keV.

Speaker

Prof. Luca Venturelli

Location

Theatersaal

3:30 PM
