

# International Conference on Exotic Atoms and Related Topics - EXA2014

## Wednesday 17 September 2014

### session II (15:50-17:30)

-Conveners: Steven Bass

time	[id] title	presenter
15:50	[52] High-precision measurement of the electron mass and stringent tests of BS-QED with highly-charged ions	Dr WAGNER, Anke
16:10	[64] Atomic Parity Violation in single trapped Ba <sup>+</sup> and Ra <sup>+</sup> ions.	Ms MOHANTY, Amita
16:30	[7] Resonance spectroscopy of gravitational quantum states of antihydrogen	Dr VORONIN, Alexei
16:50	[8] Effective gravitational potential induced by a static metric of spacetime	Prof. IVANOV, Andrei
17:10	[9] Observation of Hyperfine Transitions in Trapped Ground-State Antihydrogen	Dr OLIN, Arthur
