

Ab initio approaches in many-body QCD confront heavy-ion experiments

Tuesday 16 December 2014

Energy loss and quarkonia (11:00-18:00)

time	[id] title	presenter
11:00	[15] Jet quenching in perturbative QCD with JEWEL	ZAPP, K.
11:30	[16] Results and plans for jet measurements in CMS	ROLAND, G.
12:00	[17] High pT Particle Production and Jet Modification in Nuclear Collisions (with ALICE)	KLEIN-BÖSING, C.
12:30	Lunch break	
14:00	[18] Di-jet asymmetry and wave turbulence	IANCU, E.
14:30	[19] Jet quenching on the lattice	PANERO, M.
15:00	[20] Experiment	COLE, B.
15:30	Coffee break	
16:00	[21] Targeting moments in measurements of jet fragmentation functions	CACCIARI, M.
16:30	[22] Probing the QGP across length scales	NAGLE, J.
17:00	[23] In medium quarkonium properties and lattice QCD	PETRECKZY, P.
17:30	[24] Heavy quarkonia results in AA and pA collisions at the LHC	ARSENE, I.
