

NAVI Physics Days

Monday 18 January 2016

Session 3 - KBW Lecture Hall (16:45-19:00)

-Conveners: Thomas Neff

time	[id] title	presenter
16:45	[8] Microscopic calculations of beta-decay rates for r process	MARKETIN, Tomislav
17:30	[7] Neutrino-matter interactions for core-collapse supernovae	LOHS, Andreas
18:00	[10] ^{19}Ne spectroscopic properties of astrophysical interest via a new method of inelastic scattering	BOULAY, Florent
18:30	[18] Fission properties of r-process nuclei	GIULIANI, Samuel
