

NAVI Physics Days

Monday 18 January 2016

Session 2 - KBW Lecture Hall (14:00-16:15)

-Conveners: Stefan Typel

time	[id] title	presenter
14:00	[4] Linking nuclear formation processes and stellar chemical surface composition	HANSEN, Camilla
14:45	[5] Core-Collapse Supernovae Across the Stellar Mass Range	ERTL, Thomas
15:15	[9] Neutrino Nucleosynthesis of radioactive nuclei in supernovae	SIEVERDING, Andre
15:45	[6] The phase diagram of QCD, third families of proto-compact stars, and the possibility of core-collapse supernova explosions	HEMPEL, Matthias
