

Workshop on Geiger-mode Avalanche Photo Diodes

Monday 09 February 2009

Monday Afternoon - C27 (14:00-17:30)

time	[id] title	presenter
14:00	[1] Cherenkov radiation application, by Samo Korpa, University of Ljubljana	
14:20	[9] Application of G-APDs in Gamma Astronomy, Nepomuk Otte, UCSC	
14:40	[10] Geiger-mode APDs for the neutrino oscillation experiment T2K, Yury Kudenko, INR Moscow	
15:00	[11] Application of G-APDs in μ SR instrumentation, Alexey Stoykov and Robert Scheuermann, PSI	
15:20	[12] Study of Radiation Hardness, Iouri Musienko, CERN	
15:40	[13] Application of MAPDs for Calorimetry and ToF, Alexandr Ivashkin, INR Moscow	
16:00	[14] Performance of long scintillating fibres read-out with SiPM, by Salvador Sanchez, Mainz
