## **HI-proton experiments at SAMURAI: status report**

*Wednesday, 9 August 2017 11:50 (30 minutes)*

Current status and near-future perspectives of the experimental program with proton-rich nuclei will be presented with a particular focus on the ongoing development of the dual-gain preamplifiers for the silicon trackers and on the possible setup configuration for the campaign-type experiments.

**Primary author:** Dr PANIN, Valerii (RIKEN Nishina Center)

**Presenter:** TRACHE, Livius (IFIN-HH)

**Session Classification:** Session 7
