## **Elastic scattering of polarized proton from ${}^6\text{He}$ at 200 A MeV (SAMURAI13)**

*Tuesday, 8 August 2017 14:30 (20 minutes)*

We measured the elastic scattering of polarized proton from  ${}^6\text{He}$  at 200 A MeV in June 2016 as SAMURAI13 experiment. Polarized proton target was used for the measurement. Status of the analysis will be presented.
