

NUSTAR Week 2018

Milan, Italy
September 24 – 28

SECOND CIRCULAR

Dear Colleagues,

the NUSTAR Week 2018 will be hosted by the University of Milan (Università degli Studi di Milano) and by the INFN section of Milan. The conference will take place at the central headquarter complex of the University, Ca' Granda (via Festa del Perdono 7) and Greppi Palace (via San Antonio 12) located in the town center, 600 m from the Duomo square.

Following the tradition of previous such events, we hope to have an intense week of discussions and collaboration meetings. There will be special emphasis on Italian contributions to NUSTAR and related science as well as contributions to the construction of the FAIR facility.

With this circular we want to encourage your participation in the meeting and we also wanted to provide you with some practical information that you might find useful in planning your trip.

We are looking forward to welcoming you in Milan!
