

XQCD 2018

Monday 21 May 2018 - Wednesday 23 May 2018

Goethe University Frankfurt and FIAS

Scientific Programme

The program starts on Monday at 9:00 and ends Wednesday evening. The welcome reception takes place Monday evening together with the poster session. Tuesday afternoon we will have an excursion through the historic city center of Frankfurt, followed by a social dinner for all participants.

Major topics include:

- QCD at finite temperature and density
- Heavy-Ion collision phenomenology
- Properties of strongly interacting gauge theories
- QCD in external fields
- Astrophysical applications
